TP Weighing Platform

Weighing Platforms for Legal-for-Trade Use

The TP platform scale series delivers precise, reliable weighing for professional use. With advanced load cell technology, this weighing platform is ideal for industry, trade and logistics. Its low-profile, lightweight design allows flexible use in a wide range of working environments.

Versatile platform scale with a low-profile design
The exceptionally low height makes loading and unloading easier and improves everyday ergonomics. A choice of platform sizes and weighing capacities allows the TP series to be tailored to individual requirements.

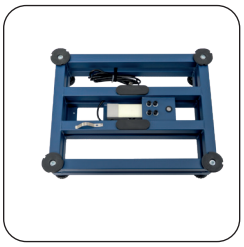

- Low-profile design for easy handling
- Lightweight construction for flexible use
- Various platform sizes available
- High accuracy with advanced load cell technology

Applications of the TP Platform Scale
The platform scale is suitable for a wide range of industrial and commercial applications

- Platform and bench scales
- Counting scales
- Filling and dosing systems
- Dosing scales
- Process industry
- Checkweighers

Compatible Indicators

The right solution for every application. We will be happy to help you choose the right indicator.

EWI / GTE
Compact indicator for basic weighing applications

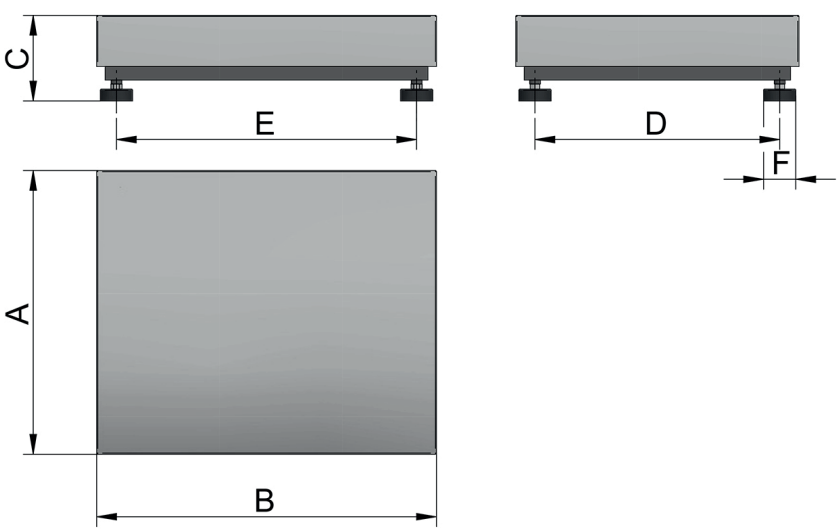

MWI / GTW
Ideal for industrial scales

MCI / GTC Counting indicator for counting applications
