BOSCHE
WÄGETECHNIK

Weighing table with counting scale system

Workstation with weighing Indicator MCI-T. The data determined as weight, amount, date, Alibi number or part number (if scanned) can be transferred to a printer, PC or a higher-level ERP system. The BOSCHE weighing table consists of a reference scale for precise calculation of the weight of a single piece and a bulk scale to calculate the total amount of objects. These two scales are connected to the powerful counting indicator MCI-T. This makes it an easy to use and fast counting system.

You can build your indivicual counting scale system by selecting different platforms from our range and combine these with our powerful counting indicator MCI for fast and precise counting.
Fast - Accurate - Noiseless.
