BOSCHE
WEIGHING SYSTEMS

Weighing module *S40-MA*

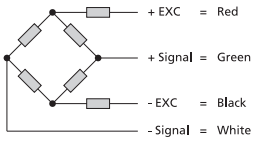

Features

- Material: Alloy Steel
- Rated load: up to 75 kg
- Load Introduction: double-sided threaded hole
- Easy to assemble
- Robust design for continuous use in the industrial sector

Application area

- Small hanging Hopper scales
- Batching
- Hanging scales
- Lifter

Electrical connection
4-wire cable

The S40-MA load cells mounted module provides a simple introduction of force for traction load cells. The upper and lower eye bolts are screwed in the load cell, so that a simple load transfer is ensured. The eye bolts are made of alloy steel.
